

PIEZON® IMPLANT CLEANING

→ THE NEW
INSTRUMENT PI

4x

INSTRUMENT PI (ART. DT-064)

ENDOCHUCK 120° (ART. DS-010)

- **EFFICIENT**
easily debrides implant surfaces
- **GENTLE**
comfortable for the patient thanks to smooth surface coating and gentle tip motion
- **SAFE**
instrument coating made of the high-tech plastic material PEEK is fully autoclaveable and safely cleans sensitive surfaces of implants and restorations; the stainless steel core makes the instrument breakproof
- **COMPATIBLE**
instrument inserts into endochuck and fits all existing EMS Piezon® ultrasonic units
