

**WOOF!**

**NO PAIN.  
YOU OWE IT TO  
YOUR DOG.**

# PAIN →

- > Your dog doesn't move like he used to?
- > Dogs often suffer from degenerative joint disease, tendonitis or even fractures. And they feel the pain just like you do!

## → YOUR DOG NEEDS YOU!

- > Choose Swiss DolorClast®Vet for pain relief.
- > Swiss DolorClast®Vet uses radial shockwaves\* to alleviate pain and to treat its causes. Save your dog from surgery or unwanted side effects. Shockwave therapy is non-invasive and requires no sedation or medication. Proven effective over and over again, Swiss DolorClast®Vet acts fast, is affordable and easy to apply.

## A DOG'S LIFE – HAPPY, HEALTHY AND PAIN-FREE

[ \*Pneumatically generated shockwaves are low-energy acoustic soundwaves that are radially transmitted to the pain area via an applicator. In human and veterinary medicine, Radial Shockwave Therapy has been a practice-proven method for the successful treatment of musculoskeletal disorders. ]
